Modular

ORIONE

design Studio Tecnico Alis Italia 2016

ORIONE è un porta bottiglie componibile a moduli indipendenti da sei bottiglie.

Un design che si ispira alle antiche botti di legno. E' realizzato in due parti sagomate di MDF colorato in pasta collegate da elementi in faggio massello naturale.

ORION is a modular rack of independent modules for six bottles each.

A design that is reminiscent of old wooden barrels. It is made of two parts molded in MDF colored paste linked by elements in natural solid beech.

Una tipologia di portabottiglie che permette un'ampia componibilità e libertà: per le composizioni sono disponibili appositi connettori rimovibili in materiale trasparente che garantiscono sicurezza e robustezza.

A type of bottle holder that enables a wide modularity and freedom: for the compositions are available special removable connectors in transparent material that guarantee safety and sturdy construction.

“Comporre con gusto e libertà”

“Composing with taste and freedom”
